DOCTOR PROGRAM

“My pediatric patient has a boo-boo...what now?”

Dr. Nikki Tucker, DDS, MAEd

Dr. Tucker was born and raised in Ayden, N.C. She graduated from North Carolina Agricultural and Technical State University with a bachelor’s in chemistry and earned a DDS from Howard University College of Dentistry. After earning her DDS, she completed residencies in general practice and pediatric dentistry at Bronx-Lebanon Hospital Center in the Bronx, New York. Dr. Tucker returned to North Carolina after completing her residencies. She practiced in the piedmont triad area for thirteen years. She joined the faculty at the East Carolina University School of Dental Medicine as a clinical assistant professor in the Department of Pediatric Dentistry and Orthodontics. During her time at ECU SoDM she has earned a Master of Arts in Education and promoted to Division Director of Pediatric Dentistry. Professionally, Dr. Tucker is certified by the American Academy of Pediatric Dentistry, fellowship in American College of Dentists, and member NCAPD. She is also is a member of Delta Sigma Theta Sorority, Inc, NCNW and other community oriented organizations. Dr. Tucker has one daughter, enjoys Aggie football and spending time with family.

Objectives:

1. Apply appropriate treatment for common traumatic injuries to the dentition and supporting structures.
2. Apply appropriate diagnosis and terminology to common traumatic injuries.
3. Define common traumatic injuries.
4. Identify common trauma resources.

DOCTOR PROGRAM

“pros-ish”

Dr. Gabrielle Jackson, DMD, MS

Dr. Gabrielle Jackson is originally from Chicago, IL where her academic accomplishments began at Bradley University with completion of her undergraduate degree in Biology. Her passion for dentistry led her to the University of North Carolina at Chapel Hill where she obtained her Doctorate in Dental Surgery degree followed by her Master of Science and Certificate in Prosthodontics. Her studies include extensive training in cosmetic dentistry, implant supported prosthetics, TMJ disorders, and full mouth reconstructions.

Dr. Jackson believes in the importance of keeping up with the latest changes in dental technology and is committed to continuing education. She maintains an active membership at the American Dental Association, the American College of Prosthodontics, the American Academy of Fixed Prosthodontics, the Texas Dental Association, and the Dallas County Dental Society. She is very passionate about service and volunteers with the Texas Mission of Mercy providing dental care to underprivileged communities around Texas. Outside of the office, Dr. Jackson enjoys spending time with family, painting, and exploring the city.

Objectives:

1. Review of important esthetic prosthodontic concepts.
2. Restorative techniques in the anterior zone.
3. Foundations and treatment planning.

DOCTOR PROGRAM

“Opioid Prescription Writing in North Carolina - Good Practices and Pitfalls” **Dr. Arnold Todd McClain**

Dr. Arnold Todd McClain resides in Chapel Hill and has two middle-school age daughters. Todd has been in private practice for the past two decades and maintains offices in Durham and Chapel Hill. Additionally, Todd has lectured locally and internationally on surgical aspects of periodontics and implant dentistry. Todd is a graduate of the North Carolina State University College of Electrical and Computer Engineering, the Howard University College of Dentistry, and completed residency in periodontology at the University of North Carolina at Chapel Hill School of Dentistry.

Objectives:

1. Review of opioids used in dentistry.
2. Recognition of misuse of narcotics.
3. Understand the responsibility of prescribing opioids.
4. Compare and contrast treatment and management of the acute versus chronic dental pain.
5. Past, present, and future considerations.

DOCTOR PROGRAM

“Opioid Prescription Writing in North Carolina - Good Practices and Pitfalls” Reginald B. Cook, CDA, OST, OSHA Outreach Trainer

Reginald B. Cook, CDA, OST, OSHA Outreach Trainer. Reginald “Reggie” Cook is the CEO of Cook Health and Safety Compliance (CHSC, LLC). Providing health and safety compliance training and consulting services that are specialized to the dental environment in the North Carolina and South Carolina regions. Reggie’s professional work experience in the dental environment from the front end to the back end of the dental office; as well as, his experience as an OSHA Outreach Trainer, NC SPICE Instructor, Infection Control and Sterilization Instructor brings a valuable range of knowledge and expertise to the dental environment. As a Compliance Specialist, Reggie works closely with OSHA, CDC, OSAP, and the NC and SC County Health Departments in relation to Community Outbreak Crisis such as the current COVID-19 Pandemic.

Reggie has worked in the dental environment for over 25 years in several capacities to include but not limited to: a Dental Tech in the US Army, and a Dental Assistant Staff Member at UNC School of Dentistry-Graduate Department of Pediatrics. His cumulative experience has allowed Reggie to gain hands-on in the clinical environment and first-hand understanding of the Asepsis Protocols and Infection Control Standard Operating Procedures (SOPs).

Reggie believes in the biblical principle to much is given, much is required. Thus, as healthcare professionals, we have a required responsibility to the health and safety of patients, staff, ourselves, and the community we serve through active compliance.

Objectives:

1. Review of opioids used in dentistry.
2. Recognition of misuse of narcotics.
3. Understand the responsibility of prescribing opioids.
4. Compare and contrast treatment and management of the acute versus chronic dental pain.
5. Past, present, and future considerations.

2. Understanding the fundamentals and purpose of Radiology (post-op and pre-op dental x-rays).
3. Identifying Dental Anatomy and Tooth Numbering.
4. How to properly record dental anatomy/tooth surfaces (dental procedures/ billing).

STAFF PROGRAM

“Getting Back to the Basics” **Sylvia Orange, Office Manager**

I have been in the dental field for over 20 years. I started my dental journey in Fort Campbell, Kentucky as a dental receptionist. Seven years later my family and I relocated to Fayetteville, North Carolina where I continued and expanded my dental knowledge by attending Dental workshops, Coding with confidence, Dental Coding & Reimbursement and Understanding Dental Insurance. I enjoy helping patients with any questions regarding their treatment plan, billing, and or dental insurance. As an office manager I assist in any capacity to help ensure patients receive quality service at our practice. My main focus is to create a friendly environment for patients, help them achieve their smile goals and for the practice to have a cohesive relationship to perform successfully. I am a firm believer that we are all here to elevate and learn from one another. I love to train others and share my work experiences to help other dental offices grow.

Objectives:

1. Improve customer service skills.
2. How to build professional and ethical relationships with your patients.
3. Critical thinking skills when solving problems that may occur with your patients.

STAFF PROGRAM

“Cyber Threats to be Aware Of” Robert Ryan, IT

As a former Chief Innovation Officer for Fujitsu’s North American business and IT consulting arm. Robert is considered a expert at connecting the dots between technology innovation, digital transformation, business growth, IT compliance and profitability for Fortune-ranked clients spanning agriculture, energy, and healthcare.

Robert's desire is to always try to make sure he is aligning the latest technology to business value and compliance requirements, optimizing processes, or driving innovation. Robert has a strong background in various facets of IT (e.g., business consulting, business development, practice management, and IT managed services). Robert has positioned his company and clients to mitigate IT risks, meet compliance requirements in today Digital Data environment.

Objectives:

1. Data service support versus Hipaa (IT) compliance.
